Billing Procedures

We will be unable to bill your insurance unless we have a current insurance card or a completed insurance form for each insurance carrier. We will make every effort, on your behalf, to collect payment from your insurance company first. You are responsible for any co-payment at the time of service. To keep your costs as low as possible, we ask that you assist us with our billing procedures.

Medicare Patients: Our physicians are Medicare participating providers. This means that we will bill Medicare the Medicare allowed fee with the remaining 20% payable by you or your Medicare supplement insurance. Medicare patients are also responsible for the annual Medicare deductible and all non-covered services. All patient portions are payable at the time of service.

Participating Insurance Plans: All charges will be billed. All patient portions and non-covered services will be collected on the day of your visit.

Managed Care Plans (HMO): Our doctors are participating providers with many Managed Care Insurance Plans. If you are a member of one of these plans, we will ask you for a referral form from your primary care physician. You will be responsible for any co-payment and non-covered services, which are payable at the time of service. The balance will be billed directly to your insurance company.

Medicaid: You must have your current Medicaid card. All charges will be billed. All patient portions and non-covered services will be collected on the day of your visit.

Non-Participating Insurance: If you have insurance with a private carrier, we will make every effort to bill your insurance company first. You will be responsible for all charges incurred, payable at the time of your visit. Your private insurance company will reimburse you directly. Any such request must be accompanied by a completed insurance form at each visit, unless your insurance carrier accepts the standard HCFA 1500 form.

Non-Covered Services and Taxes: There are some services, as well as taxes, that your medical insurance may not cover at all and payment for these services and taxes are your responsibility. Payment for these non-covered services and taxes are collected at the time of your visit.

Payments, deductibles, other: All payments that are your responsibility are due at the time services are rendered. Cash, VISA, MasterCard, Discover, AMEX or personal check from a local bank is accepted. There will be a $20 service charge for all returned checks. In the event your account becomes delinquent, you are responsible for all additional charges incurred.

While filing of insurance claims is a courtesy that we extend to our patients, some charges such as deductibles and co-payments are your responsibility. We realize that temporary financial problems may affect timely payment of your account. If such problems do arise, we ask that you contact us promptly for assistance with the management of your account.

The care of your eyes and your vision are our primary concern. Should you have any questions concerning this policy, please feel free to contact us at (808) 955-0255.

Authorization: I certify that the information I have provided to Bennett Eye Institute is true and correct. I understand that I am responsible for all charges for services provided by the Bennett Eye Institute. I authorize release of any information from my files, including, but not limited to, my medical and financial records necessary to process my insurance claims and request payment of insurance benefits to either myself or the party who accepts assignment/participation with my insurance company.

Patient/Representative Signature Date

Medicare/Medigap Long-Term Authorization: I request that payment of authorized Medicare/Medigap benefits be made either to myself or on my behalf to Bennett Eye Institute for any services, current or future, provided to me by the Bennett Eye Institute. I authorize Bennett Eye Institute to release to the Health Care Financing Administration and its agents, information needed from my files including, but not limited to, my medical and financial records for determination of benefits and/or the benefits payable for related services.
